Several of the interviews were with elders ranging in ages from 92 to 109. These interviews represent generations of cultural traditions of Black farming philosophy that honors land, sustainability, God, family and love for their community.
3:00 — 4:00 PM	WHY LAND IS IMPORTANT FOR LIBERATION: LAND HAS SO MUCH POWER (AUDITORIUM) Dr. Gail Myers, Cultural Anthropologist, Co-Founder of Farms to Grow Inc., Director and Producer of <i>Rhythms of the Land</i> In this talk, Dr. Myers enlightens that beyond the intrinsic value of land, the place-based relationship furthers a collective work and responsibility ethic, and a sense of power. As all-Black towns developed in the late 19th and 20th centuries, it was the collective approach that sustained these Black communities. Landowners donated parcels of land for building churches and schools for the entire community. Black Farmers and ranchers maintained agrarian traditions that provided the provisions to maintain traditional food ways.
4:00 — 4:30 PM	REFLECTIONS, NETWORKING, AND MUSIC BY THE FLIP CHARTS (ROOMS A & B) What have you heard? What are you most excited about? What new alliances have you formed?
