

# Home Water Testing

Does your water come from a well, spring, or cistern?

Do you want to learn more about the quality of your water?

How it works:

1. Pick up a sample kit from your local Extension office between April 1 and 8, and get instructions to collect your household water sample. If other accommodations are needed contact the Extension office.
2. Drop off sample at a designated location and time on April 10.
3. Samples are analyzed at Virginia Tech. Receive your confidential results, and explanation of what they mean, and information about addressing any problems via mail or email in approximately 6 weeks. An in person meeting or recorded video presentation will be available to help you understand your results.

**FEE: \$70 per sampling kit**

**\*Limited scholarships available\***
