

2020 Northern Shenandoah Valley Drinking Water Testing Clinics

Do you have a well, spring, or cistern?

Learn about your water quality through affordable, confidential testing and become empowered to make decisions about system maintenance and water treatment!

The goal of the Virginia Household Water Quality Program is to improve the water quality and health of Virginians with private water supplies, including wells, springs, and cisterns.

How does it work?

1. Pick up a sample kit at your local Extension Office. (Physical distancing measures will be in place, and [masks are required](#)).
2. Participate in the live Zoom Kick-Off Session.
3. Collect samples on designated date, and drop off at your local Extension Office. (Physical distancing measures will be in place, and [masks are required](#)).
4. Samples are analyzed at Virginia Tech.
5. Receive your confidential results and information about addressing any problems via mail or email. A live video or recorded video presentation will be available to help you understand your results.

What does the water test include?

Iron	Manganese	Sulfate	Hardness
Sodium	Copper	Nitrate	Arsenic
Fluoride	pH	Total Dissolved Solids	
Coliform bacteria	<i>E. coli</i> bacteria	Lead	

How much does it cost? \$60 per sample kit. Pre-registration/Pre-payment is required **by October 14** – space is limited! *Financial Scholarships Available:* Cost reduction to \$20 per sample is available on a financial need-based request. (Scholarships are limited to one sample per household and are available as long as funding lasts; awarded on a first come, first serve basis.) Please contact the Virginia Cooperative Extension Frederick County Office to inquire: (540) 665-5699.
