

# MID-ATLANTIC SPRAY DRONE WORKSHOP

33446 Research Dr.  
Painter, VA 23420

Tuesday, July 23 -  
Wednesday, July 24

Elevate your expertise at our cutting-edge Drone Workshop! Dive into the latest research on drone applications in agriculture, from cover crop seeding to drift management. Hear directly from researchers and our farmers about their real-world experiences and witness field research and flight operations firsthand. Engage with industry leaders and top exhibitors to discover how drones can revolutionize your farming practices.

COLLEGE OF AGRICULTURE  
AND LIFE SCIENCES
