

Well Water Testing Clinic

Do you have a well, spring or cistern?

Learn about your water quality through affordable, confidential testing and become empowered to make decisions about system maintenance and water treatment!

The goal of the Virginia Household Water Quality Program is to improve the water quality and health of Virginians with private water supplies, including wells, springs and cisterns.

How does it work?

1. Pick up your sample kit at the local Extension office with physical distancing measures.
2. Collect samples on designated date and drop off locally (physical distancing measure will be in place and masks are required).
3. Samples are analyzed at Virginia Tech. Receive your confidential results, an explanation of what they mean, and information about addressing any problems via mail or email. A live video or recorded video presentation will be available to help you understand your results.

What does the water test include?

Iron	Manganese	Sulfate	Hardness
Sodium	Copper	Nitrate	Arsenic
Fluoride	pH	Total Dissolved Solids	
Coliform bacteria	<i>E. coli</i> bacteria	Lead	

How much does it cost? \$60 per sample kit. Please pre-register – space is limited!

Contact: Sierra Seekford; seekfords@chesterfield.gov; 804-751-4401
